Ontario's Ministry of the Environment (MOE) has been using stringent regulations, targeted enforcement and a variety of innovative programs and initiatives, the ministry continues to address environmental issues that have local, regional and/or global effects.

For more information on the Ministry of the Environment :

<http://www.ene.gov.on.ca/>

The Ministry of the Environment is responsible for protecting clean and safe air, land and water to ensure healthy communities, ecological protection and sustainable development for present and future generations of Ontario.

Hazardous Waste Information Network (HWIN) is an important part of the Ministry's commitment to strengthen Ontario's hazardous waste management framework.

All hazardous waste generators, carriers, and receivers must register their activities with the Ontario Ministry of the Environment. For more info: <https://www.hwin.ca/hwin/index.jsp>

**The HAZARDOUS WASTE
INFORMATION NETWORK
is the first large-scale electronic
manifest system in North America.**

HWIN has enabled hazardous waste generators to register as users with user ID and password so that they could fill out reports online.

It will enhance the quality and accessibility of hazardous waste information in Ontario. HWIN also offers significant benefits to industrial users in the form of reduced costs for manifest transactions, record keeping and reporting by processing electronic manifests over the web.
